

FOR IMMEDIATE RELEASE

# Ko Craft Introduces New Mini Onigiri Mold Collection

Three Premium Stainless Steel Molds Designed for Every Occasion

**TORRANCE, Calif. – June 26, 2026** – Ko Craft Brand Products, a leading innovator in premium onigiri molds and kitchen tools, is proud to announce the expansion of its popular stainless steel onigiri mold lineup with the introduction of two new products: the **Mini Onigiri Mold** and the **2x Mini Onigiri Mold**.

Joining Ko Craft's best-selling **Classic Onigiri Mold**, the new additions create a complete family of premium musubi molds designed to make perfectly shaped triangle onigiri for every occasion—from full-size meals to snack-sized portions and party appetizers.

The original Classic Onigiri Mold quickly became a favorite among home cooks, professional chefs, restaurants, and food enthusiasts for creating restaurant-sized onigiri with speed and consistency. Responding to customer demand for a smaller option, Ko Craft developed the Mini series to bring greater versatility to the kitchen.

The new **Mini Onigiri Mold** creates a traditional Japanese snack-sized onigiri, while the **2x Mini Onigiri Mold** forms two perfectly shaped mini onigiri with a single press, making preparation faster and more efficient.

The new molds are ideal for:

- On the go snack-sized onigiri
- Bento and children's lunches
- Party appetizers / Hawaiian pupus
- Breakfast, lunch, or dinner
- Creating a variety of fillings and flavors in one meal

The Classic Onigiri Mold measures **3.25 inches** from base to center peak, while both Mini models measure **2.75 inches** from base to center peak. All three molds share the same **1.875-inch height**, providing consistent thickness while offering different serving sizes.

## Engineered for Performance and Comfort

Ko Craft's new Mini onigiri collection is engineered for both home kitchens and professional food service environments.

Each mold is manufactured from premium **316 stainless steel**, providing exceptional durability, corrosion resistance, and anti-bacterial hygienic performance. The matching stainless steel press features an ergonomic silicone handle that delivers a comfortable grip while making it easy to create consistently shaped onigiri with its open design.

Whether preparing a single serving or large batches, Ko Craft molds help produce professional-quality results every time.

## Availability

The **Classic Onigiri Mold**, **Mini Onigiri Mold**, and **2x Mini Onigiri Mold** are available online at:

- [MusubiMaker.com](http://MusubiMaker.com)
